

RJ45 Pass-Through Connector

Features & Benefits

- Allows for easy termination on CAT6 cables
- Easy to verify proper wire color/sequence
- Reduces the distance between wire twists and contacts, increasing performance
- Gold plated contacts provide long-lasting electrical performance
- Compatible with most pass-through crimp tools
- Compatible with both stranded and solid CAT6 cable

Overview

Optichina Pass-Through Connectors are used by network installers/technicians in order to terminate network cables with a pass-through crimper. They are used in households and businesses and are ideal for terminating a round network cable or even replacing an existing connector.
